

Chair: Matt

Attendance: Ron, Bruce, Fenny, Karalee, Karlie, Peter

Visit from Dean Lewis

Dean discussed potential for partnering to work on Stormwater management.

- Come up with plan to maintain Stormwater routes
- Explore partnership and how it could work, education component
- Naturalize
- Develop before construction

Simmons sport centre - porous parking lot

4 different projects that could be looked at for details/research

Development plan to incorporate watershed groups

-Will this hurt the watershed groups when owners are upset with project

We should write up what we want to see out of it / our thoughts/ideas

Check out town of Cornwall site as a reference point for project development.

Website is up and running

- Board is all in favour on paying for website work

Hydrogeoloist to provide base-line study of water levels in stream in hyde creek.

Bylaws are being finalized

AGM for April or May

- Show a BioBlitz
- Have speaker/representative to speak
- Wildlife techs

Next meeting

Make a list of what we would want for a partnership on a development project

Matt bringing contour maps
