

CAWG business meeting August 12, 2020 at Townhall 7 to 8 PM

In attendance: Tamsyn, Linda, Ryan, Bruce, Ron, Peter, Diane, Karalee, Matthew

All agreed that returning to the CAWG office which requires a completion of the Covid 19 operational plan will be submitted to Townhall

Concerning recognition of champions along salmon Rivers we shall use:

- community newsletters
- professional looking certificates of appreciation for their managing woodlots
- To be delivered at the project presentation/PR event

UPEI Coles Creek environmental flow monitoring-documents/maps were shared to board

Send AGM presentation from Mike to Miltonvale Park

Re: wellfield impacting Coles Creek dramatically - our proactive approach

It has been decided that there will be no recording of our meetings for board members who cannot attend

PR event for the naturalization/no/Low mowing and water Conservation

Approach By email all political parties in regards to Coles Creek impacts due to city wellfield

Proactive approach to preventing impacts to Coles Creek from city of Charlottetown wellfield

Letter from Miltonvale Park to province, city of Charlottetown etc. call them to task:

-put limits on residential water use based on average per day (65 L/Day)

Currently at 130 L/day

- Make residence of city paid for going over average person to deter them from destroying the habitat in Coles Creek

– educational PR in conservation in city Council

– show evidence from Winther River situation

- Reminder of what happened in the recent past with the winter river and city's consumption

Representational risk (RR) Tie in with how to sell behavioral changes in water consumption we want the public to engage in . Example: how good it is for the future-There will be no potatoes growing here on PEI in 50 years

Meeting with sustainability manager at city Ramona Doyle? Or with city Council (Mayor Brown)
Meeting adjourned 8:30 PM
